

# Earthborn Lifestyle Emulsion

## 1. What is Earthborn Lifestyle Emulsion?

Earthborn Lifestyle Emulsion is both durable and washable, with a classic low-sheen finish. Suitable for internal walls and can be used on dry, porous and grease-free surfaces i.e. wallpaper, wood, plaster and other primed surfaces.

## 2. Coverage

Approximately 10M<sup>2</sup> – 12M<sup>2</sup>

## 3. Properties

Earthborn Lifestyle Emulsion is totally free from oils, acrylics and is also virtually VOC free. It has a high solids content which gives it excellent covering properties and makes it easy to apply. It is wipeable, hygroscopic, anti-static and low odour.

## 4. Preparation

Surfaces must be dry, clean and free of dust and grease. Remove all loose plaster and make good uneven areas with filler. All unstable (flaking/peeling/powdery) paint surfaces should be removed with a brush or scraper. Oil paint surfaces should be lightly sanded. Any nicotine, water or similar stains must be treated with Earthborn Isolating Primer before you start.

## 5. Application

Stir thoroughly before use. Earthborn Lifestyle Emulsion can be applied with a brush, roller or spray gun. For best results, apply 2 coats. For porous surfaces such as bare plaster apply a coat of Lifestyle Emulsion thinned with water (four parts paint mixed with one part water). Allow to dry between coats.

## 6. Colours

Available in Earthborn's 72 standard shades.

## 7. Drying Time

In normal temperatures and humidity, allow 6 - 12 hours drying time between coats. The emulsion is touch-dry after 1-2 hours. The final painted surface is fully wipeable after 10 days.

## 8. Cleaning

Wash tools with warm water.

## 9. Storage

Keep containers tightly sealed and store in a cool, dry and frost-free place. Unopened containers have a shelf-life in excess of 6 months.

## 10. Safety

Please refer to the Material Safety Data Sheet

## 11. Ingredients

Water, Chalk, Talcum, Vinegar Ester, Titanium Dioxide, Phosphate, Sodium Hydroxide, 0.1% synthetic preservative (Methylcellulose)

## 12. Moisture Vapour Transmission

MVT value = 481g/m<sup>2</sup> per 24 hours

## 13. Disposal

After being allowed to dry, Earthborn Lifestyle Emulsion can be disposed of by normal waste disposal methods. (Refer to local authority guidelines if necessary) It should not be emptied into drains or watercourses.

## 14. VOC content

This products has a VOC content of less than 0.5g/L

*Our colours are made using a traditional batch process so there may be slight colour variations between batches and the colour chart. Whilst every precaution is taken to ensure colour continuity, please make sure you have sufficient paint from the same batch to complete your work.*

*The user is recommended to test the product on the intended surface to ensure its suitability*
