

Earthborn Furniture Glaze

1. Earthborn Furniture Glaze is a clear, water-based glaze designed to protect painted furniture. Glazed surfaces will remain durable with a soft sheen finish; repelling water, dust and grease.

2. Coverage

Up to 9m² per litre.

3. Drying times

Touch dry in 1-2 hours. Allow 6-12 hours before overpainting. Maximum durability will be achieved after 10 days.

4. Uses

Earthborn Furniture Glaze can be used over Earthborn Eco Chic Claypaint for furniture and offers protection to various decorative effects, including Earthborn Crackle.

5. Preparation

The surface should be clean, dry and free from dust and grease. Non-absorbent or gloss surfaces should be lightly sanded first.

6. Application

Stir and apply over the painted surface with a brush, working in smooth strokes. When dry, apply a further coat for optimum protection.

7. Cleaning

Clean tools with water.

8. Storage

Keep containers sealed and store in a dry, cool, frost-free place.

9. Ingredients

Water, acrylic binder, fumed silica, coalescent, wax, defoaming agent, amine, synthetic preservative (methylisothiazolinone).

10. Safety

Please refer to Materials Safety Data Sheet.

11. Disposal

Any leftover paint should not be emptied into drains or watercourses but allowed to dry and reference made to local authority disposal guidelines.

The user is recommended to test the product on the intended surface to ensure its suitability. Earthborn Furniture Glaze can deepen some paint colours by a shade or two. We recommend you test it in a discreet area of the intended surface before application.
